THE COMPANY BOOK

*Crafting
timeless spaces
with
world-class tiles*

At Mossbil, we don't just manufacture tiles, **we craft the foundation of timeless spaces**. With cutting-edge technology, world-class design expertise, and a deep commitment to quality, our facility stands as a benchmark in the global ceramic and vitrified tile industry.

From our state of the art manufacturing plant, we produce an extensive range of large-format slabs, each engineered to deliver unmatched durability, precision, and beauty.

Our Journey of Excellence

From humble beginnings to global recognition, our story is one of passion, innovation, and continuous evolution in the ceramic and surface solutions industry.

From 2009 to 2025 and beyond — our journey is a testament to growth, innovation, and a relentless commitment to excellence.

2009
Pyramid Ceramic

Mfg of
Ceramic Clay

2015
Marbilano Tiles LLP

Mfg of
600 x 600mm & 600 x 1200mm
GVT / PGVT

2021
Marbilano Surfaces LLP

Mfg of
600 x 1200mm
GSVT

2024
Marbilano Grestile

Mfg of
600 x 1200mm
GVT

2025
Marbilano Stone LLP

Mfg of
800 x 2400mm & 800 x 3000mm
LARGE SLAB

MARBILANO TILES:
12960 Sq.Mt. / DAY - 9MM THICKNESS

MARBILANO SURFACES:
20880 Sq.Mt. / DAY - 9MM THICKNESS

MARBILANO GRESTILE:
15120 Sq.Mt. / DAY - 9MM THICKNESS

MOSSBIL STONEVENTIONS:
10500 Sq.Mt. / DAY - 15MM & 18MM THICKNESS

Our Values

Innovation

Constantly pushing the boundaries of design and technology to deliver cutting-edge ceramic solutions.

Quality

Ensuring every product meets the highest standards of strength, precision, and beauty.

Heritage

Preserving the craftsmanship and “know-how” rooted in our Italian tradition.

Sustainability

Committing to eco-friendly production processes that respect the planet.

Customer Focus – Building long-term relationships by understanding and exceeding client expectations.

Mossbil Stoneventions is one of the leading international companies for the production and marketing of porcelain stoneware slabs and tiles. Our success is the result of productive competence and experimentation, together with a “know-how” that is typical of our Italian tradition, excellently expressed in surfaces that bring together strength and beauty, to create new beautiful environments in which to live.

YEARS
2009-25

Technologies

Each of our patented technologies enhances technical and aesthetic qualities.

TECHNO STONE

Techno Stone is Mossbil's technology to reproduce the aesthetics of natural stone both on the surface and in the body of the slab.

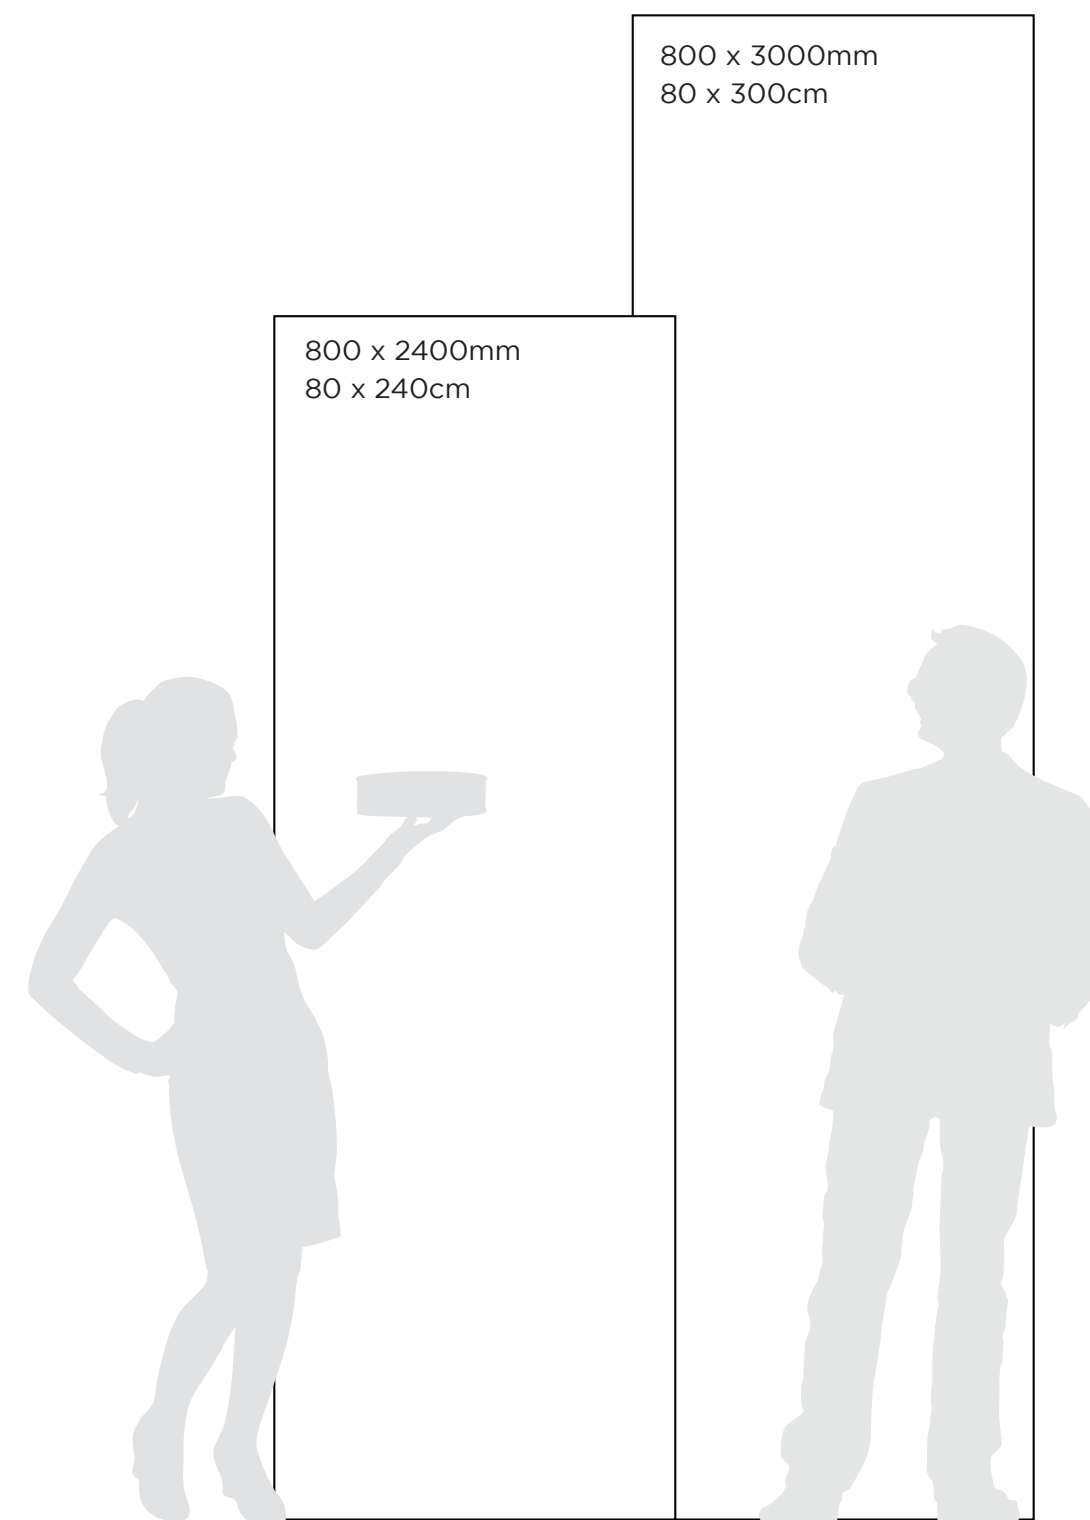

Full body slabs

INTRA-VENA STONE

Intra-vena Stone is Mossbil's technological innovation for marble-effect porcelain slabs with through vein.

Through Body veins

Chemical resistant

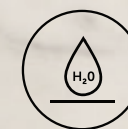

Heat resistant

Environment-friendly

Easy to clean

Water resistant

Stain resistant

Hygienic

Edges

Our porcelain slabs are crafted for those icons. Engineered with cutting-edge technology, refined through master craftsmanship, and perfected with timeless aesthetics, each slab is a testament to excellence.

45° Square edge

Square straight edge

Square double straight edge

Rounded double straight edge

Square I-shaped edge

45° Rounded edge

High performance sintered slabs

Versatile and simply beautiful, we revolutionizes the design and architecture world by opening up new perspectives in tiles application that were previously unimaginable.

Where Technology Meets Timeless Design

At Mossbil, we believe world-class surfaces begin with world-class technology. Our manufacturing facility stands at the forefront of the Indian tile industry, integrating the most advanced innovations in design and production.

From fully automated powder decoration systems to state-of-the-art robotic product handling, every process is engineered for precision and consistency. Our slabs are brought to life with high-resolution Italian digital printing, delivering unmatched detailing, depth, and realism in every design.

We are home to India's largest and widest polishing line, powered by KEDA technology, ensuring a flawless, mirror-like finish. At the core of our capacity is the PCR 2000 Continua press — the industry benchmark for large-format slab production — equipped with the latest software to ensure flexibility, efficiency, and perfection at scale.

Every Mossbil porcelain slab undergoes rigorous quality control in our dedicated in-house research and testing laboratory, guaranteeing strength, durability, and performance that meet the highest international standards.
